

CIRCULAR NO. 10/2023

20 October 2023

**TO: PRINCIPALS OF SCHOOLS ENTERING CANDIDATES FOR THE 2024
FURTHER STUDIES PROGRAMMES: AFRIKAANS, ENGLISH,
MATHEMATICS AND PHYSICS**

**FURTHER STUDIES MATHEMATICS: CURRICULUM AND ASSESSMENT MANUALS
(CAMs)**

This circular serves to notify schools of revisions that have been made to the CAMs subject documents.

Revisions:

1. The CAM documents have been revised to provide a more detailed explanation of how the subject-level outcomes align with the ISC's qualification specific outcomes as well as the broad learning outcomes.
 - Each CAM document now has the same structure, and the revisions can be found under 1.2–1.4 and 5.1 of each document.
2. The CAM documents now include an Assessment Addendum in each subject which outlines subject specific information that relates to the assessment. This re-packaging provides clarity and a consistent approach across all curricula in the International Secondary Certificate.
3. Subject specific content/skills revisions are indicated below:
 - Page 25 of 33: typo of the t-substitution corrected to: *integration by u-substitution*.
 - Page 33 of 33: the addition of trails and cycles to: *Define walks, paths, trails, cycles, and circuits*.

The Revised CAM documents have been uploaded onto the IEB website: <https://www.ieb.co.za/> Document Library / High Schools/ A to Z Subjects/Further Studies Mathematics. Furthermore, they will be discussed at the 2024 User Group Conference to allow opportunity for further clarity and engagement.

Should teachers have any queries, they are invited to contact Helen Sidiropoulos sidiropoulos@ieb.co.za.
